

Receive SYSTEMS

Large turnkey TVRO (TV receive only) systems have always been a major part of our system business. We provide TVRO systems for cable headends and TV/Radio transmitter stations for terrestrial retransmission of programs received from satellite.

Typical system components are:

- > TVRO antennas with diameters between 1.2M and 4.9M
- > LNA / LNB / BDC systems
- > Racks with multiple IRDs
- > Monitor & Control System

Please refer to our product section for details about the equipment mentioned above
